## PROJECTS

GoForRent (01/2018 - 01/2018)

- GoForRent is an online rental app. This is a final year project for UET students. Basically the purpose of this project is to give online service of rental furniture, bridle clothes, and other assessors. Fetching data using Retrofit and volley Libraries, Firebase Database for storing data

H&F (02/2017 - 06/2017)

- H&F (03/2017 - 06/2017) H&F is a health and fitness app that records user BMI and suggest their diet according to their BMI. Also, suggest exercise to users to normalize their BMI. This project uses SharedPreferences to save the data locally.

Origin (01/2020 - 02/2020)

- Origin an online app for ordering the Food from an Online shop. The project is based on Firebase Database and SQL Lite database.

Sign Language Communicator (FYP) (06/2020 - 12/2020)

- The main objective of this project is to develop an android application through which two people can communicate with one another using text as well as Signs mainly to ease the communication between the two parties. This application will eliminate communication barriers for deaf/mute people. It will be a chatting application through which deaf/mute and ordinary people can interact with each other. This application will not only be limited to static Alphabets or digits.

Lesfemmes (08/2020 - 11/2020)

- LesFemmes is UAE's first Buy and Sell with Female Networking App. Sell your Designer, Preloved, and Vintage clothes easily for free online. It is also a platform where you can freely share your thoughts and ideas with each other, create groups and events and share them in different community.

TheWorkGenies (08/2020 - 11/2020)

- TheWorkGenies is an amazing new alternative for employment in Dubai and other GCC cities.
